

Part-time program over 2 years on Friday and Saturday: MBA IZMA from Warsaw Agricultural University (SGGW), Poland, and ESSEC Business School, Paris-Cergy, France. The pedagogical program is managed at the Faculty of Human Nutrition and Consumer Sciences at SGGW.

You are a business executive and want to improve your career in Polish agri-food companies / international companies in Poland, within the framework of the integration of Poland into the European Union.

Objective

The objective of the programme is to train business executives for agri-food companies in Poland and to contribute to the expansion of agri-food companies in Europe.

Characteristics of the IZMA program

- Part-time program over 2 years for business executives motivated by the integration of Polish agri-food companies into the European economic environment.
- Program with joint degree signed by Warsaw Agricultural University (SGGW) and ESSEC.
- Courses and seminars in management carried out by SGGW and ESSEC professors.
- Program carried out in partnership with agri-food companies including Bonduelle Polska, Carrefour Polska, Casino Polska, Lactalis Polska.
- Program mainly taught in Polish with intensive courses of French and English.
- Support of the international network of the ESSEC alumni association, which includes IZMA alumni.
